- > To define skills, values, and personal characteristics
- > To target opportunities that match personality, aptitude and interests

How will this report help?

This report is to help you understand your inclination towards a particular stream and identify best stream on basis of your aptitude, personality and interest that can be pursued after class 10. The test is meticulously designed by panel of psychologists, academic counselors and academicians to help you in your first important decisions related to career.

Key Features of the Report

- > Recommended stream
- > Aspiration fitment analysis
- > Core potential areas and improvement areas
- > Behavioral Patterns
- > Recommended Careers, Courses and Colleges

Your Recommended Streams

Science - Medical: Moderately Recommended

Humanities: Moderately Recommended

Your Profile Summary

Aspired Streams (Based on Your Interests)

Humanities: Moderately sought after

Science - Medical: Moderately sought after

Your Top Skills

Cognitive Perceptual Speed: Highly skilled at

Verbal Reasoning: Moderately skilled at

Analytical Reasoning: Moderately skilled at

Your Key Personality Traits

Emotional Stability: Likely to handle workplace stress in an extremely calm, steady and secure way. Has a highly optimistic outlook and does not get frustrated or irritated easily.

Agreeableness: Easily trusts others and is very frank and straightforward when with other people. Tends to be very agreeable and accepting and will work efficiently in a group.

Recommended Streams

Science - Medical

This stream deals with the study of living organisms, including their structure, function, growth, origin, evolution, distribution, and taxonomy.

Desired Skill Set

- Analytical and detail oriented
- Interest in Biology
- Hard Working
- Inquisitive
- Scientific bent of mind
- Attention to detail
- Strong sense of responsibility

Benefits of studying this subject

- Gives knowledge that can be utilised for the betterment of health facilities and preventive measures for diseases and health issues.
- Huge scope of scientific research even promoted by government and private sectors.
- Teaches how living things are all connected to one another, helping to see why it is important to preserve our planet and the creatures on it.
- Teaches about how living things work, helping to understand the own bodily functions, organ systems and health.

Major Subjects

- Biology
- Physics
- Chemistry

Recommended Courses

- MBBS - (Bachelor of Medicine, Bachelor of Surgery)
- BDS -(Bachelor of Dental Surgery)
- BHMS - (Bachelor of Homeopathic Medical Sciences)
- BAMS - (Bachelor of Ayurvedic Medical Sciences)
- BPTTh - (Bachelor of Physiotherapy)
- BOTh - (Bachelor of Occupational Therapy)
- BASLP - (Bachelor of Audiology & Speech, Language Pathology)
- BUMS - (Bachelor of Unani Medical Sciences)
- BVSc. & AH - (Bachelor of Veterinary Science and Animal Husbandry)
- B.P. & O. - (Bachelor in Prosthetics and Orthotics)
- BSc. Nurs - (Bachelor of Science, Nursing)
- B. Pharma - (Bachelor of Pharmacy)
- B. Sc - (Child Development)
- BSc - (Dietetics)

Top 10 Colleges in India

- All India Institute of Medical Sciences(AIIMS), Delhi
- Christian Medical College, Vellore
- Armed Forces Medical College, Pune
- JIPMER, Puducherry
- Maulana Azad Medical College, Delhi
- Lady Hardinge Medical College, Delhi
- Madras Medical College, Chennai
- Grant Medical College, Mumbai
- Kasturba Medical College, Manipal
- Sri Ramachandra Medical College & Research Institute, Chennai

Likely Occupations

- Doctors
- Dentists
- Homeopathic Doctors
- Ayurvedic Doctors
- Physiotherapists
- Occupational Therapists
- Audiologists
- Dietitians and Nutritionists
- EMT and Paramedics
- Optometrists
- Pharmacists
- Speech - Language Pathologists
- Veterinarians
- Nurses
- Science Teachers
- Lab Assistants
- Marine Biologists

Related Work Activities

- Monitoring and providing general care to patients on hospital wards and in outpatient clinics.
- Preparing and delivering lectures to undergraduate and/or graduate students on topics such as molecular biology, marine biology, and botany.
- Helping people identify their problems and assist in finding the best ways to cope with the situation.
- Examining teeth and diagnosing patients' dental conditions by using tools such as x-rays.
- Assisting patients with joint and spinal problems, especially following surgery; helping patients' rehabilitation following accidents, injury and strokes.

Industry/ Job Fitment

- Academic Institutions
- NGOs
- Government Institutions
- Hospitals
- Media houses
- Art galleries
- Entertainment industry
- Counseling Centres
- Fashion Studios
- Law firms
- Rehabilitation Centres
- Human resources and so on

Aspired Stream (Based on Your Interests)

Values shown in above chart are percentages

■ Very Low ■ Low ■ Moderate ■ High ■ Very High

Science - Medical: **Moderate**

• Your suitability for this stream is "Moderately Promising". • You have displayed moderate interest and inclination towards this stream. • We moderately recommend you to explore this stream.

Science - Non Medical: **Very Low**

• Your suitability for this stream is "Not Attainable". • You have displayed hardly any interest and inclination towards this stream. • We do not recommend you to explore this stream.

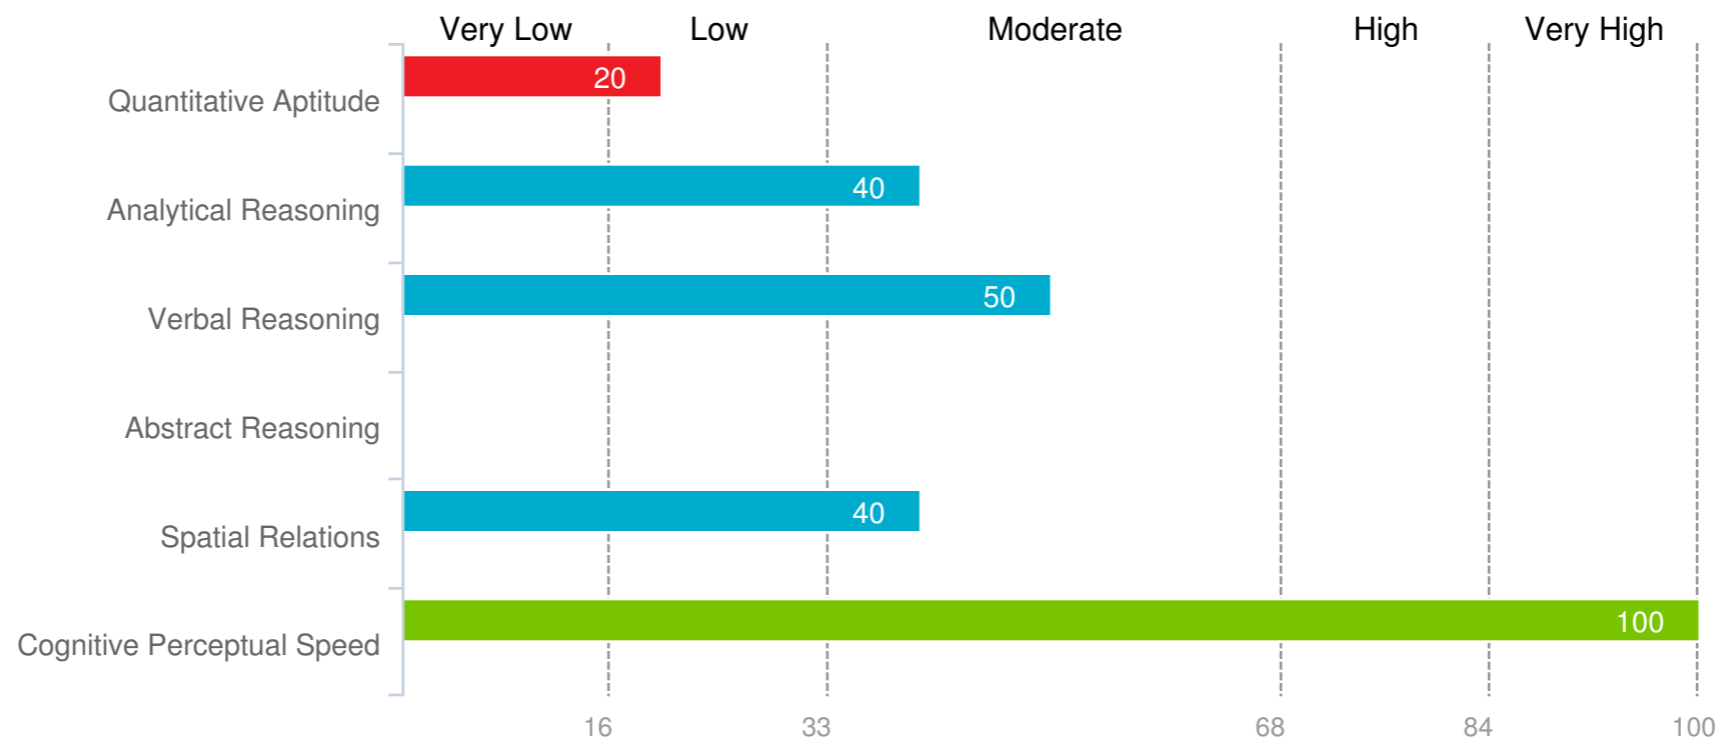

Commerce: **Very Low**

• Your suitability for this stream is "Not Attainable". • You have displayed hardly any interest and inclination towards this stream. • We do not recommend you to explore this stream.

Humanities: Moderate

• Your suitability for this stream is "Moderately Promising". • You have displayed moderate interest and inclination towards this stream. • We moderately recommend you to explore this stream.

Your Skills (Based on Aptitude)

Values shown in above chart are percentages

■ Very Low ■ Low ■ Moderate ■ High ■ Very High

Quantitative Aptitude: Low

Quantitative aptitude is the application of mathematical concepts and skills to solve real-world problems in order to perform effectively. Your performance is poor in Quantitative Reasoning.

Analytical Reasoning: Moderate

Analytical reasoning is the ability to recognize and determine the meaning of patterns in a variety of information. Your performance is moderate in Analytical Reasoning.

Verbal Reasoning: Moderate

Verbal reasoning is understanding and reasoning using concepts framed in words, aimed at evaluating ability to think constructively. Your performance is moderate in Verbal Reasoning.

Abstract Reasoning: Very Low

Abstract reasoning is the laterla thinking ability, to quickly identify patterns, logical rules and trends in new data, integrate this information, and apply it to solve problems. Your performance is very poor in Abstract Reasoning.

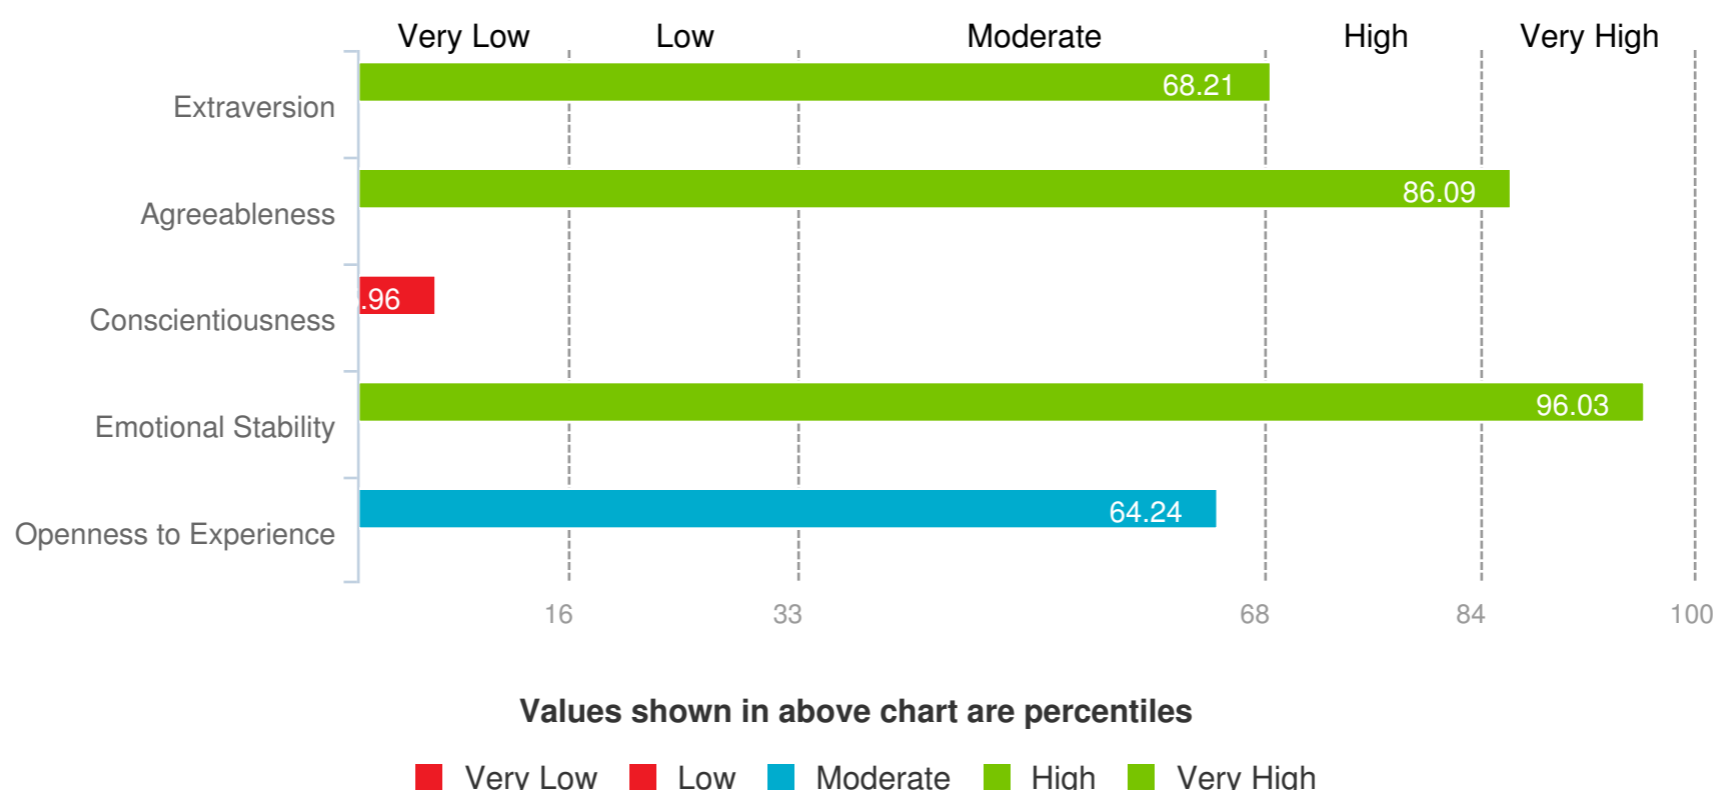

Spatial Relations: Moderate

Spatial relations is the ability to distinguish differences among similar objects or forms, which helps in understanding relationships and recognizing underlying concepts, in turn leads to effective problem solving and conceptual skills required for higher level science and math. Your performance is moderate in Spatial Relations.

Cognitive Perceptual Speed: Very High

Cognitive perceptual speed results from demands on attention, working memory, and set shifting, is required for real-time performance in many domains, including reading and driving. Your performance is excellent in Cognitive Perceptual Speed.

Your Personality Traits

Extraversion: High

Likely to be cheerful and amiable. Enjoys working and interacting with other people. Uses assertiveness and persuasion to achieve goals and expresses opinions strongly. Likely to be comfortable with meetings and stimulation and enjoys working in tasks that involve risk taking.

Agreeableness: Very High

Easily trusts others and is very frank and straightforward when with other people. Highly sympathetic towards others and derives satisfaction from helping the needy. Tends to be very agreeable and accepting and will work efficiently in a group. Unlikely to boast about own achievements. May come across as a humble, cooperative and submissive individual.

Conscientiousness: Very Low

Unlikely to adhere to ethics and rules and is casual about responsibility. Works towards goals in a relaxed and inefficient manner. Lacks the confidence to compete with others and is not at all ambitious. Has a very unorganized approach to work and rarely thinks through decisions. Unlikely to complete uninteresting tasks. Prone to procrastination.

Emotional Stability: Very High

Likely to handle workplace stress in an extremely calm, steady and secure way. Has a highly optimistic outlook and does not get frustrated or irritated easily. Can easily resist impulses and does not act on the spur of the moment. Likely to be very secure in one's abilities and may be perceived as being highly easy going and relaxed, even when dealing with critical situations.

Openness to Experience: Moderate

Is as imaginative and innovative as most people. Moderately appreciative of artistic and natural beauty. May need some convincing before dropping conventional methods to adopt innovative ones. Tends to strive for a balance between emotions and logic while making decisions. Adjusting to constraints and flexible to others' demands to some extent. Unlikely to lose focus on the task due to excessive focus on novelty.

 **Strengths**

Trust: Readily trusts and forgives others.

Optimism: Very relaxed and inapprehensive.

Happiness: Likely to always see opportunities in problems and not easily discouraged.

 **Areas of Development**

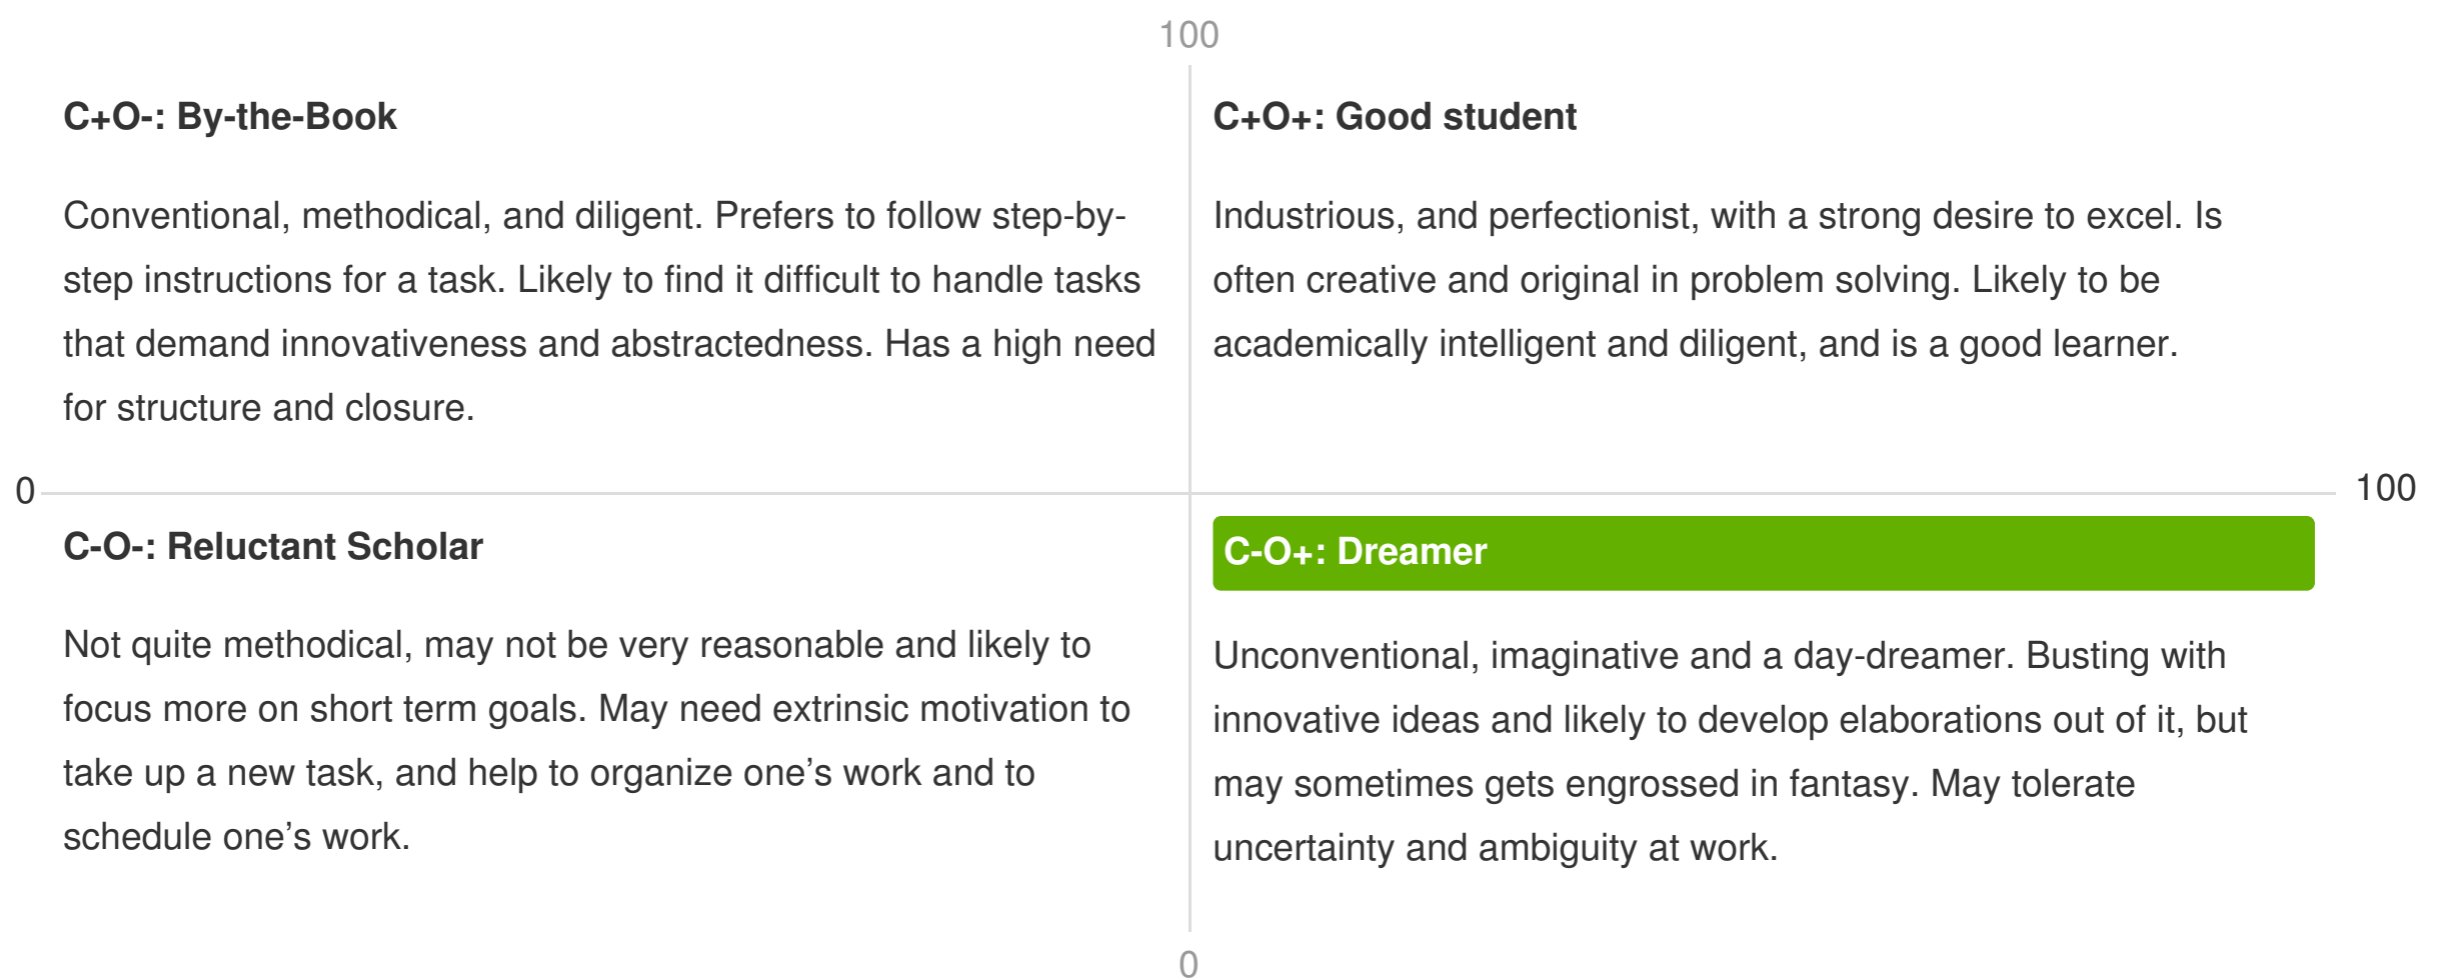

Deliberation: Learn to take some time while making decisions and think about all the available options.

Organization: Focus on planning and following through. Be methodical.

Dutifulness: Be more ethical in your approach to work. Learn to follow rules regularly and develop a sense of duty.

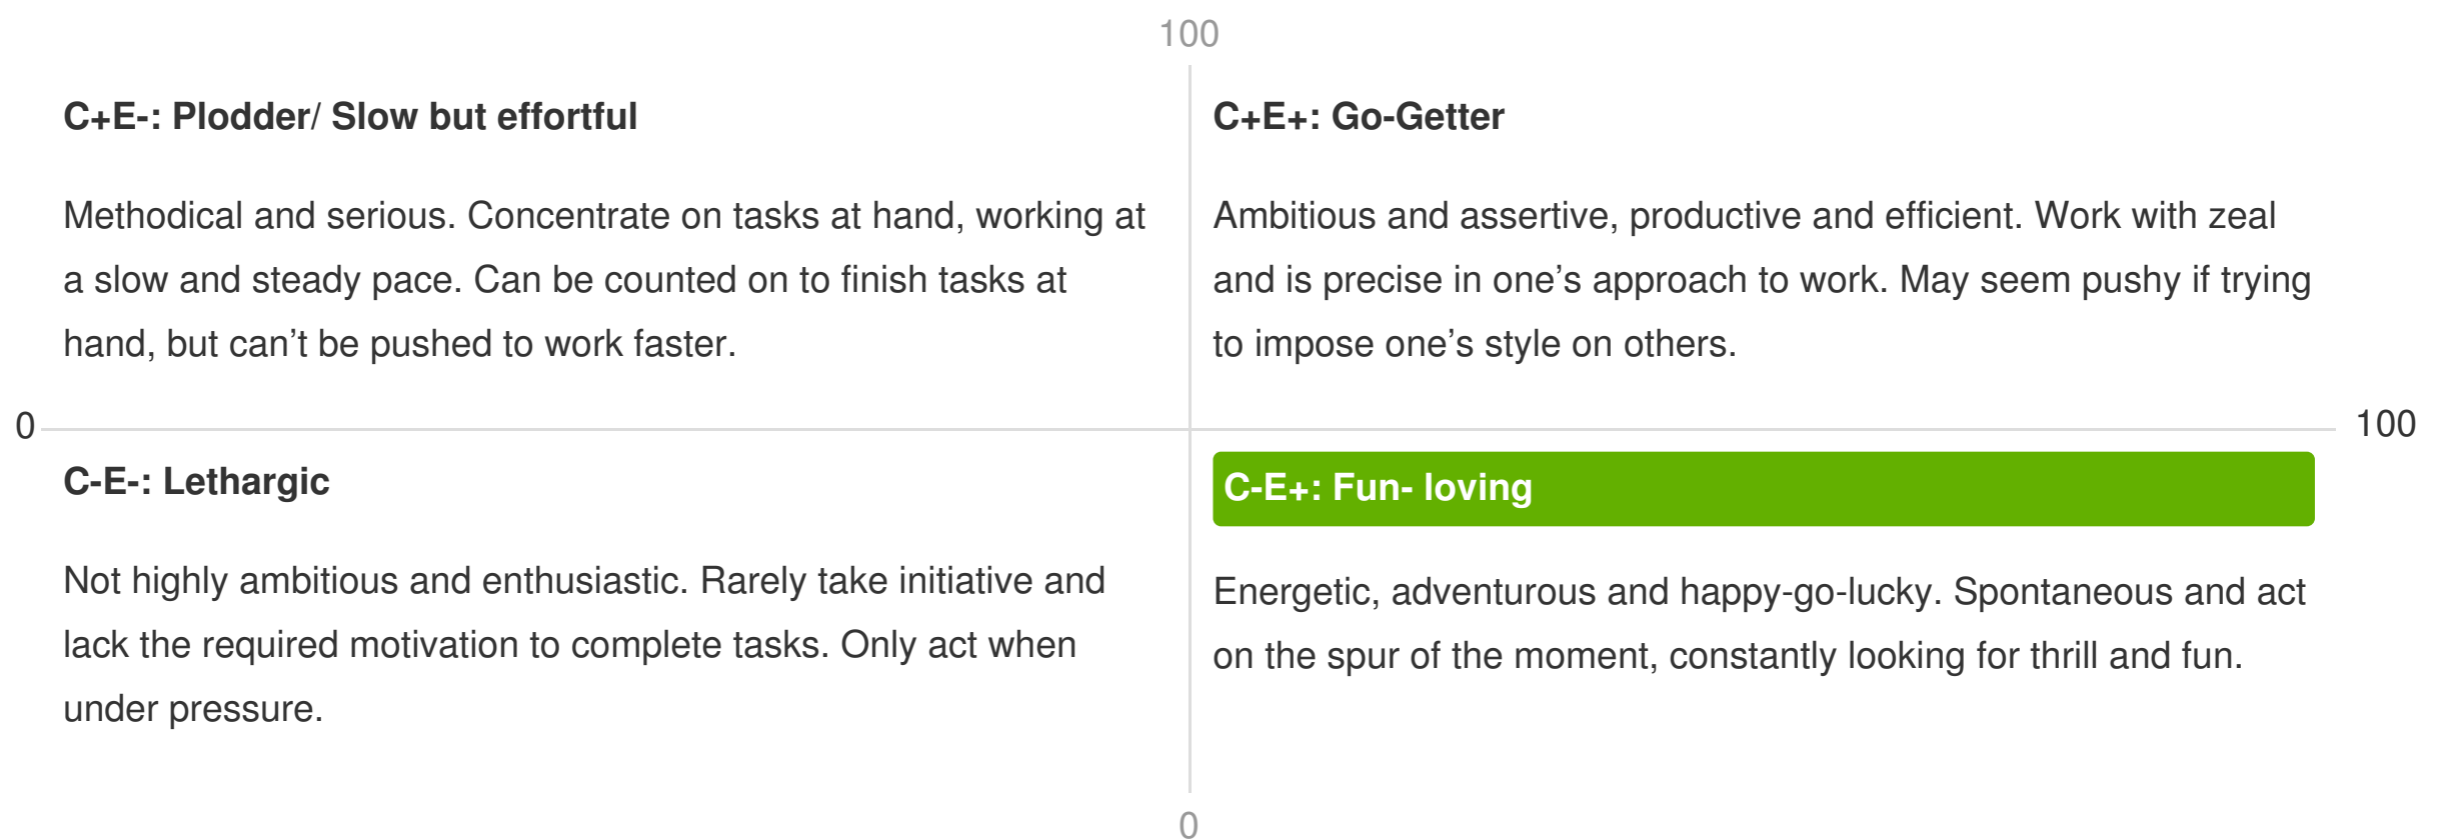

Your Behavior Patterns
